Office of the Assistant Commissioner for Patents
U.S. Patent and Trademark Office
Crystal Park Building 2, Suite 919
Washington, DC 20231

RECEIVED
94 JAN 14 PM 12:12
DEPUTY ASSISTANT COMMISSIONER FOR PATENTS

Dear Mr. Van Horn:

This is in regard to the patent term extension application for U.S. Patent No. 4,755,534 filed by Sandoz, Ltd. under 35 U.S.C. § 156. The patent claims the human drug product Lamisil Cream (terbinafine hydrochloride), NDA 20-192.

In the May 18, 1993 issue of the Federal Register (58 Fed. Reg. 28,984), the Food and Drug Administration published its determination of this product's regulatory review period, as required under 35 U.S.C. § 156(d)(2)(A). The notice provided that on or before November 15, 1993, 180 days after the publication of the determination, any interested person could file a petition with FDA under 35 U.S.C. § 156(d)(2)(B)(i) for a determination of whether the patent term extension applicant acted with due diligence during the regulatory review period.

The 180-day period for filing a due diligence petition pursuant to this notice has expired and FDA has received no such petition. Therefore, FDA considers the regulatory review period determination to be final.

Please let me know if we can provide further assistance.

Sincerely yours,

Ronald L. Wilson
